Hyderabad,Telangana

PROFESSIONAL SUMMARY

Well-rounded and detail-oriented Full-Stack Developer with a strong foundation in both front-end and back-end technologies using Ai, and a passion for building immersive, high-performance applications—especially in the gaming domain. Certified in Python, Java, SQL, and AI, with hands-on experience debugging and refining code across multiple languages.

EDUCATION

Bachelors in Engineering - CSE, St. Mary's Group of Institutions , Hyd.

Sep 2023

Holding CGPA - 8.5

Intermediate , Telangana Minority Residential Junior College , Hyd

June 2020 - May 2021

Percentage - 86

SSC , St. Mark's High School , Hyd

April 2020

Percentage - 98

TECHNICAL SKILLS

- Languages: Java, JavaScript, HTML, CSS, Python (basic)
- Frontend: React.js, Responsive Design
- Backend: Node.js, Express.js, REST APIs

EXPERIENCE

Deloitte Australia – Forage Virtual Internship |,

Technology Intern (Remote Simulation)

- Simulated software development tasks and proposed a dashboard solution

Programming Practice & Skill Development

Ongoing | Platforms: HackerRank, LeetCode, Codeforces

- Actively participate in coding challenges across multiple domains including algorithms, data structures, and problem-solving.
- Solve real-world scenarios using Python, JavaScript, and C to sharpen debugging and optimization skills.

TECHNICAL PROJECTS

AI Virtual Keyboard

Personal Project | Python | 2025

- Designed and implemented an AI-powered virtual keyboard using Python and OpenCV for real-time hand gesture recognition.
- Utilized computer vision techniques to detect fingertip positions and map gestures to keyboard inputs.
- Integrated a predictive text feature using NLP models to enhance typing efficiency.

COURSES & CERTIFICATIONS

Courses : AI , Java , Python , Html

Certification : Java (Basic) , Python (Basic), SQL (Basic)
